Summary

Backend engineer with seven years of experience building payment and data platforms that handle billions of requests a month. I like turning slow, fragile systems into boring, reliable ones.

Professional Experience

Stripe – Seattle, WA

Senior Software Engineer

Mar 2023 – Present

- Lead a team of 5 engineers that owns the ledger service recording every card payment, about 4 billion entries a month
- Moved the ledger from a single PostgreSQL cluster to a sharded design with no downtime, cutting p99 write latency from 180 ms to 35 ms
- Wrote the team's on-call guide and cut pages per week from 14 to 3 by fixing the five noisiest alerts at their source

Zillow – Seattle, WA

Software Engineer II

Jun 2020 – Feb 2023

- Built the Kafka pipeline that feeds new listings into search within 90 seconds of an agent publishing them, down from 20 minutes
- Replaced a nightly batch job with incremental updates in Go, saving \$40,000 a month in compute
- Mentored 3 new graduates through their first year on the team

Expedia Group – Bellevue, WA

Software Engineer

Jul 2018 – May 2020

- Added price caching to the hotel search API in Java, raising its cache hit rate from 40% to 85%
- Wrote contract tests between search and booking that caught 12 breaking changes before release

Intuit – Mountain View, CA

Software Engineering Intern

Jun 2017 – Sep 2017

- Built an internal tool that flags tax form fields left out of new releases, used by 30 QA engineers

Skills

Languages: Go, Java, Python, SQL, TypeScript

Infrastructure: Kubernetes, Terraform, AWS, Kafka, PostgreSQL, Redis

Practices: System design, incident response, load testing, code review

Education

University of Washington – Seattle, WA

B.S. in Computer Engineering

Sep 2014 – Jun 2018

GPA: 3.7/4.0

Certifications

AWS Certified Solutions Architect – Professional, Amazon Web Services (Jan 2024)

Certified Kubernetes Administrator, Cloud Native Computing Foundation (Aug 2022)

Volunteer Experience

Ada Developers Academy – Seattle, WA

Mentor

Jan 2021 – Present

- Meet weekly with a student in the full-stack program to review code and practice interviews
